SAT / ACT REVIEW CLASSES

The Scholastic Aptitude Test (SAT) continues to be an essential component of the college selection and decision process for college-bound seniors. These review courses in Mathematics and English (Verbal) content areas help students prepare successfully for these important tests. The classes are intensive and comprehensive. These concentrated courses are devoted exclusively to reviewing and mastering test materials. Courses will include a simulated test.

SAT / ACT: MATHEMATICS

Session I: 8:30-10:00 AM

Session II: 11:30 AM-1:00 PM

The SAT class in Mathematics is designed to give incoming seniors a thorough review of college preparatory math. The review includes an overview of basic concepts and theories and practice in using essential skills and formulas.

Tuition: \$400

SAT / ACT: ENGLISH

Session I & II: 10:00-11:30 AM

The SAT English (Verbal) class provides incoming seniors with a review of logic problems and analytical readings. Writing, vocabulary-building and on-going word review are included. Review and practice for on-demand essay writing in the new format will be thoroughly covered.

Tuition: \$400

SO YOU WANT TO MAKE A MOVIE

10:00-11:30 AM

An introduction to elements of non-linear editing, this project-based class will teach students to do feature editing, including a 30 second commercial, a man-on-the-street interview, a photo montage, and a scene that tells a story. Students will use current video equipment and Adobe Premiere Pro CS6 to create digital videos for presentations or portfolios.

Tuition: \$400

GEAR UP FOR GEOMETRY

8:30-10:00 AM

This course is an opportunity for rising sophomores to develop skills needed for success in Geometry. Introductory instruction and conceptual development of geometric theorems, postulates and proofs are provided. Students will learn to switch from the analytical approach used in Algebra to the more logical methodology of Geometry.

Tuition: \$400

ALGEBRA REFRESHER

10:00-11:30 AM

A review of basic algebra skills grown “rusty” during geometry, this course is designed to help students prepare for Algebra II in the Fall. This class will allow students to begin their third year of high school mathematics with confidence and knowledge.

Tuition: \$400

CRAFTING THE COLLEGE ESSAY

Session I	June 26, 27, 28, 29, July 5	10:00 AM-12 N
Session II	June 26, 27, 28, 29, July 5	6:30-8:30 PM
Session III	July 10, 11, 12, 13, 17	6:30-8:30 PM

Designed for seniors who will soon begin the application process, this class focuses on the essential college essay. Classes will concentrate on general essay principles and examine effective techniques. Assistance with individual drafts will be provided.

Tuition: \$150 per session

Orderly conduct and appropriate dress are expected at all times. Collared shirt, fingertip shorts or cuffed pants, and socks are the norm. Gonzaga is a smoke-free campus.

We request early mail-in registration.

Holidays - July 3, July 4
